

Working hard to reduce risks

Purpose-built
for wet, harsh
environments

You face some of the toughest challenges.

That's why you need dispensers you can rely on. The new, purpose-built Tork® Washstation system, dispenser and refills, is precisely engineered to help mitigate risks, increase operational efficiencies, and handle the pressures of a rigorous and regulated environment.

Minimize risks

Designed from the ground up, the Tork Washstation Dispenser fits seamlessly into your cleaning or HACCP protocols. It's built to withstand wet environments and does not require removal during spray-downs, keeping refills safe and hygienic for every use. And with a smooth, durable, plastic casing, it's easier to maintain and keep clean.

Maximize efficiencies

Save on cost, labor and waste with a water-resistant dispenser that protects refills during spray-downs and in wet areas—all while delivering a stylish impression. At 250 meters of quick-absorbent paper per roll, the Tork Washstation Dispenser holds long refills, so you don't have to reload as often.

Tork Washstation Dispensers – W6 System

| Art. No. | Name | Color | Size H x W x D (cm) | Dispenser Capacity | Units/Case |
|----------|----------------------------|-----------------|---------------------|--------------------|------------|
