

## Dispense confidence with Tork hand-hygiene solutions

# Are you prepared to meet today's increased hygiene expectations?

Today, there is increased awareness for hand hygiene, and people expect effective and safe products in the spaces they visit. At the same time, facility managers and cleaning professionals need solutions that help improve operational efficiencies.

As a trusted partner and the **global leading, sustainable professional hygiene brand**, Tork improves business performance through sustainable hygiene management.

## The Tork hand-hygiene offer includes:

- one flexible dispenser system (S4), which is now compatible with foam soaps, liquid soaps, hand sanitisers and shower cream, for maximum flexibility;
- factory-sealed bottles, with a new pump for each refill, which help reduce the risk of contamination and protect formulations from production to hand;
- highly effective formulations, with carefully chosen ingredients;
- leading sustainable hygiene solutions that help reduce the negative impact on our planet, and support sustainability goals; and
- a complete washroom offer, with award-winning dispenser designs, paper hand towels, toilet paper, soap, sanitiser, lotions, air-care products and bins for a coordinated washroom.

By implementing Tork hand-hygiene solutions in your facility, you can feel assured knowing that the comprehensive system **delivers efficiency benefits**, which support hygiene, safety and your business bottom line.

# Hygiene for all

The Tork Easy to use<sup>1</sup> certified system helps secure a higher hygiene standard in facilities. When products are easy to use, more people practise proper hygiene, benefitting your people, your customers, your business and your reputation.

## Tork hand-hygiene products:

### promote hygiene:

- Antimicrobial soap and hand sanitisers in liquid, gel and foam form help kill a broad range of germs that may cause illness.
- Gentle soap formulations encourage good hand hygiene.
- Tork sensor dispensers can contribute to increased hygiene confidence with touch-free dispensing.

### are efficient:

- Refilling is intuitive for cleaners and takes less than 10 seconds, ensuring cleaning staff minimise time spent tending to dispensers.<sup>2</sup>
- Tork skincare dispensers are reliable and hassle free and proven to perform up to one million pushes.<sup>3</sup>

### are easy to use:

- Tork skincare dispensers encourage hand hygiene for all – even children and the elderly – through their ‘Easy to use’ certification.<sup>1</sup>

**Ella's Hand Washing Adventure App** teaches children hand hygiene, building critical habits at a young age.

 **Carefully chosen ingredients keep skin healthy and smooth**

<sup>1</sup> Certified by the Swedish Rheumatism Association, tested according to The Design for All Test, published in the Swedish Design Research Journal, 2011

<sup>2</sup> Based on internal panel test soap refilling time

<sup>3</sup> Based on Essity test

# Meeting the demanding hygiene needs of businesses and facilities

Tork hand-hygiene products address both increased hygiene expectations and ongoing business challenges, by providing a safe and sustainable solution while delivering efficiency benefits.

## A flexible dispenser system for any location or situation:

- One dispensing system meets all needs with sensor-driven touch-free or manual options, ensuring the highest levels of user comfort and hygiene.
- Tork skincare dispensers take less than 10 seconds to refill,<sup>4</sup> saving cleaning staff time and energy.
-  Dispensers are compatible with Tork Vision Cleaning, a Wi-Fi-enabled, data-driven solution.

## Tork dispensers elevate your environment:

- Award-winning dispenser designs integrate seamlessly into any setting.
- Includes touch-free sensor or manual dispensing in Elevation and Image design lines.

## Constantly improving and innovating:

- With Tork hand-hygiene products, you can be assured that you are selecting the highest-quality solutions.

Award-winning, **Tork Clean Hands Training** is available in VR and on desktop, promoting hand-hygiene compliance in acute and long-term care facilities. This new training method is the result of a collaboration between Tork, university hospitals and world-leading hand-hygiene experts.

<sup>4</sup> Based on internal panel test soap refilling time

# Solutions that help support your sustainability goals

Sustainability is increasingly affecting consumer choices. Today, 46% of consumers consider the product's effect on the environment when purchasing hygiene products.<sup>5</sup>

## Sustainability benefits of Tork skincare:

### Reduces waste and consumption:

- Tork Skincare Dispensers (S4) with Tork Foam Soap help reduce consumption by up to 50%.<sup>6</sup>
- Dispensers are reliable and proven to perform up to one million pushes<sup>7</sup>, meaning they have to be replaced less frequently, reducing waste.
- Refill bottles are collapsible, reducing waste volume by 70%.<sup>8</sup>

### Secures sustainability accreditations:

- Most Tork soap and hand-hygiene refills are certified sustainable by EU Ecolabel or Swan Ecolabel, helping customers support their sustainability goals.

### Contributes to a healthier planet:

- Tork Clarity Foam Soap is made with 99% of ingredients from natural origin and is readily biodegradable.<sup>10</sup>

**Tork Clarity Foam Soap** leads to a 35%-lower carbon footprint when compared with Tork Mild Foam Soap.<sup>9</sup>

<sup>5</sup> Essity Hygiene Matters, 2020

<sup>6</sup> Essity test: Using Tork Foam Soap 0.5 ml/push vs Tork Liquid Soap 1 ml/push in 1,000-ml refill in an Elevation dispenser

<sup>7</sup> Based on Essity test

<sup>8</sup> Based on an internal panel test comparing Tork Mild Foam Soap

<sup>9</sup> Based on 2021 third-party verified LCA, where reduced water consumption resulting in less water heating was a major factor.

<sup>10</sup> Proven by third-party lab test according to OECD301B
